Sport Infinity (WRAP) : "The next-gen sport products, custom-made, recycled."

Description: The goal of the [Sport Infinity project](#) is the creation of a new generation of custom-made recyclable sport products, including shin guards, shoes and soccer balls. The WRAP consortium includes ten top-level industry partners and the first prototypes are currently under development. Our involvement (Hypercliq) is focused on the design and implementation of decision-support system for "smart" knowledge management and CAD optimization via AI algorithms and Machine Learning modules.

Keywords:

textiles, materials, CAD, data mining

Notice: The Sport Infinity (WRAP) project is currently under development. Publication of all the material and results related to this work is limited due to IPR limitations, until the last stages of the project by the end of 2017.
